

Xenotech Projects

Outline of Xenotech Job Layout

1. **File | New** and assign plate values
2. Enter Text mode and type in all text: paying no attention to size, fonts, baseline, etc.
3. **Plate | Even Spacing** (or **F8**) to "balance" text over layout
4. "Massage" until acceptable
This is where you'll spend most of your time
"tweaking" the letter heights, baselines, fonts,
spelling, etc.
5. **File | To Engraver...** (or **F1**)
